Courses

The "Tec divers" are happy now because we are offering a full range of TDI courses. *Real service courses* are now being offered as well. Learn how to perform your annual VIP for your cylinders, oxygen clean equipment, and other cylinder services.

Travel

We're in the process of expanding our travel section, and would like to do more group travel. Help us out and let us know where you want to go so we can take you there! Key Largo trips are now bimonthly, so join us for our March trip, and dive the great wrecks and reefs that Key Largo has to offer.

Gear

Apeks has just released two new regulators that would be a great match for any diver-the *Flight* and the *Tek 3*. We have also started bringing in some new gear from DiveRite, like BCs and regulators. So come by the shop and check some gear off your wishlist.

E-mail us your suggestions at scubainfo@annapolisscuba.com
